Subject: reporter question

Hi Richard. I'm writing about how you are a thread connecting three of the most significant EPA efforts, the secret science proposed rule, the science advisory board reforms and the proposed red team exercise. I saw your name mentioned a number of times in emails and public schedules that were recently released under FOIA, and I know those efforts all stem from the House Science Committee as well. I've also spoken with some of the people outside of the EPA who spoke with you on those issues.

Do you have a few minutes to talk today?

Thanks,

Scott Waldman
